Complete Web Developer Course 2.0 - Udemy

SWAYAM NPTEL: Programming in C++

SWAYAM NPTEL: Problem solving through Programming in C

PERSONAL PROJECTS

Smart Room using IoT approach
- The system provides facility to control electrical appliances by IoT sensor and other communication devices efficiently. We can control room appliances by mobile device or laptops or over web anywhere in the world.

SocialOwl
- An online platform designed for college students specifically to share their thoughts and opinions and connect to each other. It also provides students to share the study material among themselves by posting an ad for books and other resources.

To-Do List (Mini-Project)
- A to-do list React web app designed to schedule the tasks and mark as complete when required.

EXTRA CURRICULAR ACTIVITIES

CodeCooks Club Co-ordinator
As a Technical Club Coordinator, I was responsible for overseeing and organizing activities within the technical club or community. One of the primary responsibilities is to plan and coordinate technical workshops, seminars, and events.
